

## How to Set Up Wireless on an Android Device

### Basic Settings:

ESSID (Network Name): LSUSWireless (Note: Case-Sensitive)

Network Type: Infrastructure (or Access Point)

TCP/IP: DHCP

EAP Type: PEAP

Network Authentication: WPA2 Enterprise

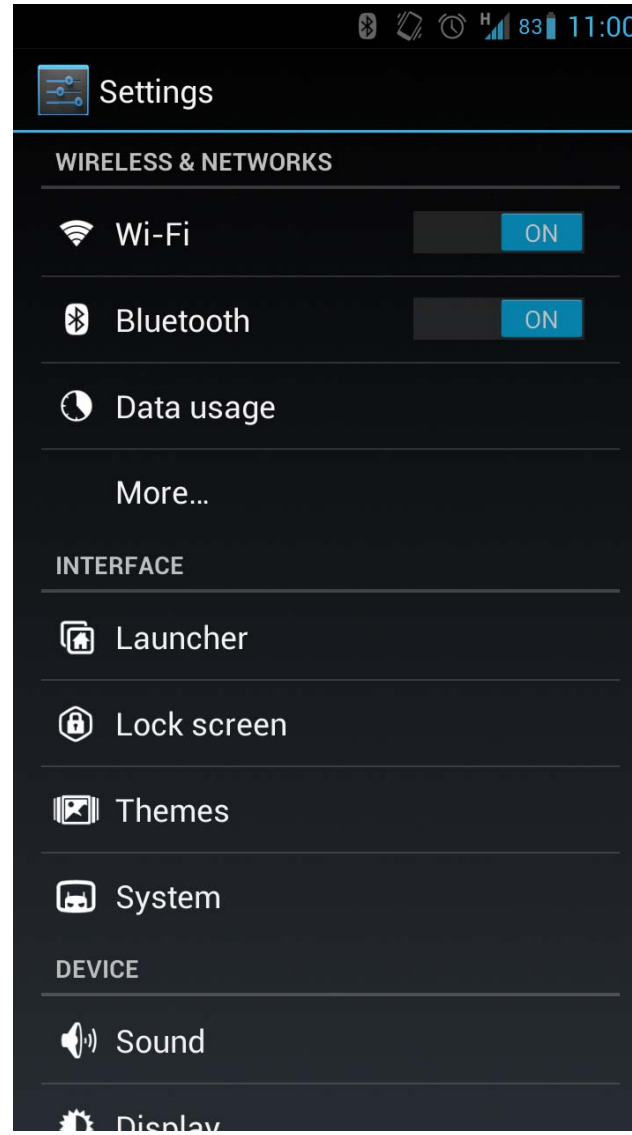

Data Encryption: AES

Authentication Method/Protocol: MSCHAP-V2

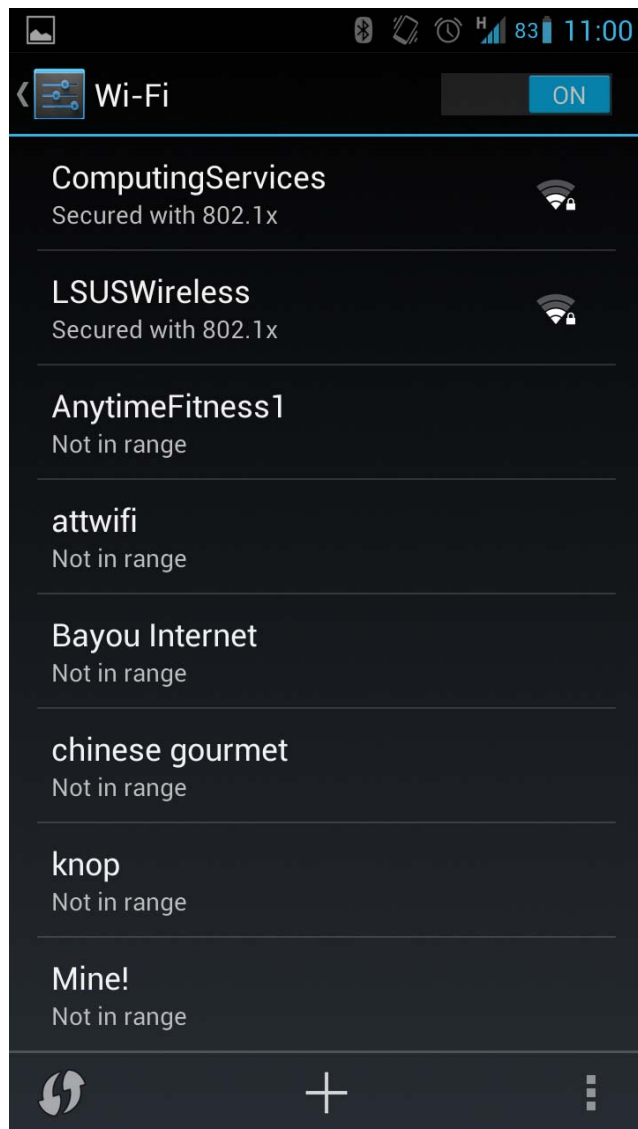

Inner EAP Type: EAP-MSCHAPv2

Identity: LSUS Username (student ID or username)

1. From the *Settings* menu, tap *Wi-Fi*.

2. Select *LSUSWireless*.

3. Enter your username or student ID into the *Identity* field and your password into the *Password* field. This will be the same username and password that you use for Moodle and email.
