

Chemistry

Chemistry, the central science, is an excellent springboard to careers in many specialized areas—from biotechnology and materials science to environmental protection. About 60% of B.S. graduates will work in industries ranging from huge multinational corporations to small entrepreneurial firms with the balance in academic, biomedical, and public sector institutions. Most chemists are involved in either research and development or production of chemicals and materials. Many laboratory chemists perform analyses for biomedical, forensic, environmental, and production quality control purposes. Others are responsible for facility environmental health and product applications.

¹American Chemical Society Certified Curriculum

²Students not prepared to begin with Mathematics 221 should take either Mathematics 121 or 122 as electives.

³At least 45 hours of all course work must be at 300-400 level.

⁴Mathematics 223 is a 4-hour course.

⁵See "General Degree Requirements" *LSU in Shreveport Catalog* for restrictions

Chemistry Minor: The student choosing to minor in Chemistry must take 24 hours consisting of the following courses: 8 hours of CHEM 121, 121L, 124, 124L; 5 hours of CHEM 255, 255L, 259; 8 hours of CHEM 265, 265L, 266, 266L; 3 hours of BCHEM, CHEM, or ENSC at the 300 or 400 level.
