(President)

Proposal to install a Postage Stamp Machine at the University Court Apartments as well as on the LSUS campus

Whereas,

students residing at the University Court Apartments have the ability to send and receive mail

Whereas,

the nearest post office location to serve students is further than suggested walking distance away from the university (1.68 miles – E. 70th St.)

Whereas,

a vast number of University residents and students with no transportation have no way of obtaining postage stamps while on campus

Therefore, be it resolved that,

a Postage Stamp Machine be installed at the University Court Apartments

Be it further resolved that,

the University re-install a Postage Stamp Machine in the University Center (student union)
