JUDGMENT ON SECURING EDUCATIONALLY PROMISING HELP

Be it known,

That students who need to use the University's educational resources after normal closing hours are currently unable to do so. Students greatly require these resources for final exam preparation, so the University should open the campus-wide computer lab for 24 hours a day the weekend prior to, as well as the week of finals.

Whereas,

Many students at LSUS do not have the computing resources at their homes that they need for exam preparation.

Whereas,

Students need a place to meet with their classmates to prepare for their exams.

Whereas,

The Academic Affairs Committee is charged with taking action on any academic matters put forth before them by the student body, and the Committee determined the students desire a 24 hour study lab for finals.

Whereas,

The Student Government Association is tasked with representing the concerns of the student body and promoting the general welfare of all students.
